SUMMARY

Results-driven Web Developer with 2+ years of professional experience in building scalable, responsive, and user-friendly web applications. Proficient in HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, PostgreSQL, and MongoDB. Passionate about AI-powered applications, modern web technologies, clean UI design, performance optimization, and delivering seamless user experiences across diverse devices.

EXPERIENCE

Frontend Web Developer

i-next web technology pvt. ltd.

August 2025 - Present

- Designed and developed responsive web interfaces using React.js and Tailwind CSS.
- Collaborated with cross-functional teams to deliver high-performance features.
- Integrated APIs and optimized user interaction across multiple platforms.
- Collaborated with UI/UX designers to translate Figma designs into interactive, user-friendly interfaces.
- Implemented component-based architecture for code reusability and easier maintenance.

Frontend Web Developer

Global Studioz

June 2024 - July 2025

Designed and developed responsive web interfaces using React.js and Tailwind CSS.

- Collaborated with cross-functional teams to deliver high-performance features.
- Integrated APIs and optimized user interaction across multiple platforms.
- Collaborated with UI/UX designers to translate Figma designs into interactive, user-friendly interfaces.
- Implemented component-based architecture for code reusability and easier maintenance.

PROJECTS

ChatMate | [LiveDemo](#)

A personal AI chat platform built using n8n automation workflows, designed to provide real-time conversational support with secure local data handling.

- Developed a custom AI chat dashboard where users can interact with the assistant in a clean and responsive interface.
- Integrated **webhooks with n8n** to automate AI responses and handle real-time message flow efficiently.
- Implemented local server-based chat storage to prioritize user privacy and personal data control.
- Designed a smooth conversation experience with fast response handling and organized chat management.
- Optimized the frontend for both desktop and mobile devices to ensure accessibility and usability across platforms.

AI WhatsApp Chat Agent | [LiveDemo](#)

Developed an AI-powered WhatsApp automation dashboard for automatic customer replies using Meta WhatsApp Business API and webhooks.

- Built with Next.js, TypeScript, Supabase(Postgresql), Prisma, and integrated AI models(Deepseek) for intelligent auto-replies.

- Implemented Human Mode and AI Mode toggle for seamless switching between manual and automated conversations.
- Created a chat dashboard to send, receive, and manage WhatsApp messages efficiently.
- Focused on responsive UI/UX, scalability, and smooth real-time communication experience.

Poxymon | [LiveDemo](#)

A professional business website for an epoxy flooring service provider, designed to reflect brand trust and drive customer conversions.

- Designed a modern, clean UI optimized for mobile and desktop views.
- Integrated service-focused sections, image galleries, and call-to-action buttons to improve user interaction.
- Improved loading performance and navigation flow to enhance user experience.

Mendyh Band Website | [LiveDemo](#)

A visually engaging website built for a local music band to showcase their story, music, and upcoming events.

- Focused on delivering an artistic and immersive design aligned with the band's identity.
- Ensured fully responsive design for smooth experience on all devices.
- Integrated media sections for audio samples, images, and promotional content.

TECHNICAL SKILLS

- Programming language: JavaScript/TypeScript
- Web development: HTML, CSS, JS, REACT JS, NEXT JS, TAILWIND CSS, BOOTSTRAP, SCSS/SASS
- Database management: PostgreSQL, MongoDB
- Tools & Version control: Git/Git Hub, VS Code, Cursor, Chrome DevTools

SOFT SKILLS

- Leadership
- Flexibility
- Creativity
- Responsibility

EDUCATION

Bachelor of Engineering: Computer Science Engineering
Chandigarh University

Aug 2020 – May 2024
